

# As part of the **Zero Emissions Bus** program, **MDOT MTA** is rebuilding the **Eastern Bus Division** to support **100% Battery Electric Buses (BEBs)**.

## Project Schedule

## Project Benefits

**Cleaner and quieter** fleet of battery-electric buses

Sustainability features to attain **LEED Silver**, including **solar panels**

**Dedicated bus entrance** separated from residential streets

**Upgraded intersection** at Ponca St. and Eastern Ave.

**On-site employee parking** will free up street parking

Improved **sidewalks** and **crosswalks**

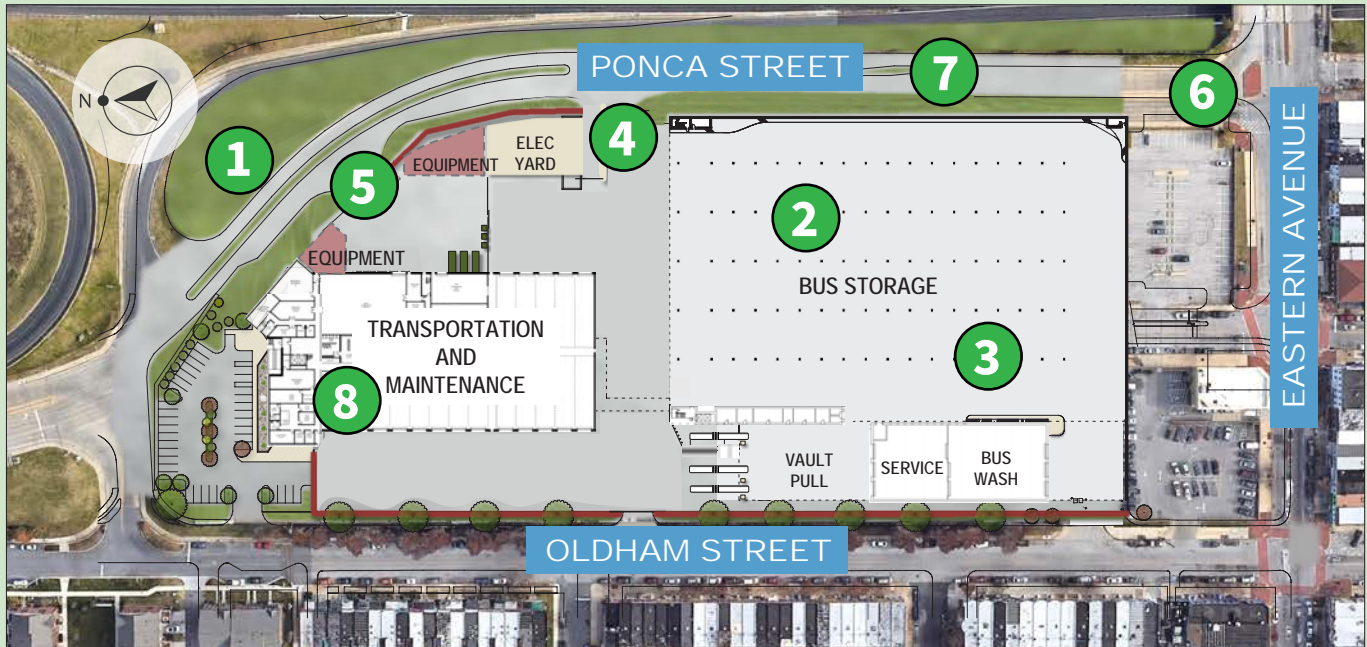

**Modern facility** for MDOT MTA operators and staff

## What improvements are being made?

Eastern Bus Division is an important part of MDOT MTA's bus system, but it was originally built in the 1930s and it lacks the technology and space to support BEBs.

- 1 Ponca St. will be shifted further east to allow more space on the bus facility site.
- 2 Solar panels will be installed on the roof of the bus storage building.
- 3 Employee parking will be located on top of the bus storage building.
- 4 The bus entrance into the facility will be on Ponca St.
- 5 Trucks will enter the facility from Ponca St.
- 6 The intersection of Eastern Ave. and Ponca St. will be reconstructed. New crosswalks and signals will be installed to improve pedestrian safety.
- 7 Ponca St. will be reconstructed as a safer road with one lane per direction, turn lanes, tree buffers and a green median.
- 8 The transportation and maintenance building will include space for bus operations, maintenance and training.
